

Saturday 17-Apr-21	Theme	Title
10:00-10:10	<b>Welcome &amp; Introductory Comments</b>	
	<b>Back to Foundations: <i>Valvular Heart Disease</i></b>	
10:10-10:25		How to assess the MV
10:25-10:40		How to assess the AV
10:40-10:55		How to assess the right sided valves
10:55-11:10		Discussion
11:10-11:15	<b>HYDRATION BREAK</b>	
11:15-11:45	<b>Rapid Fire Abstract presentations #1</b>	also make available as eposters
11:45-12:15	<b>EACVI President: Dr. Thor Edvardsen</b>	<b>Beyond LVEF: strain</b>
12:15-12:30	<b>LUNCH BREAK</b>	
	<b>Shaking the Foundations: <i>Heart Failure</i></b>	
12:30-12:45		AI: A Time to Pump - systolic function
12:45-13:00		AI: A Time to Relax - diastolic function
13:00-13:15		The RV takes a Hit: Cardio-Oncology
13:15-13:30		Discussion
13:30-13:40	<b>ERGONOMIC BREAK</b>	
	<b>Reinforcing the Foundations: <i>Hemodynamics 101</i></b>	
13:40-13:55		Plumbing Snafus - Intracardiac Shunts
13:55-14:10		In a Death Grip - Constrictive pericarditis
14:10-14:25		Too much Fibre? Restrictive cardiomyopathy
14:25-14:40		Discussion
14:40 -14:45	<b>HYDRATION BREAK</b>	
14:45 -15:15	<b>RapidFire Abstract Presentations #2:</b>	also make available as eposters
15:15-16:15	<b>Cases across Canada</b>	
	5-6 cases (each 10-15 minutes)	
16:30-17:30	<b>REMO: Abstract winners/Karaoke celebration</b>	

Sunday	Theme	Title
<b>18-Apr-21</b>		
0850-0900	<b>Welcome &amp; Introductory Comments</b>	
9:00-10:00	<b>Feature Session: Extending the Frontiers</b>	Lung Ultrasound/Vexus/ TeleGuidance
10:00-10:10	<b>HYDRATION BREAK</b>	
	<b>Echocardiography in CAD</b>	
10:10-10:25		Stress and contrast echo for diagnosis of CAD
10:25-10:40		Post MI complications: VSD, free wall rupture, pap muscle rupture
10:40-10:55		Echocardiography and MCS/LVAD
10:55-11:10		Discussion
11:10-11:15	<b>HYDRATION BREAK</b>	
11:15-11:45	<b>ASE President: Dr. Judy Hung</b>	<b>Transcatheter Mitral Valve Therapy</b>
11:45-12:15	<b>Special Session:</b>	<b>CSE Cares: Ergonomics: Taking Care of Yourself</b>
12:15-12:30	<b>LUNCH BREAK</b>	
	<b>Role of echo in Critical Care</b>	
12:30-12:45		POCUS in hemodynamic assessment of ICU patient
12:45-13:00		Role of TEE in CCE
13:00-13:15		Pericardial effusion, tamponade, and pericardiocentesis
13:15-13:30		Discussion
13:30-13:40	<b>ERGONOMIC BREAK</b>	
	<b>Multimodality cardiovascular imaging</b>	
13:40-13:55		Multimodality imaging of CAD: CCT and CMR
13:55-14:10		Multimodality imaging of cardiomyopathies: sarcoid, amyloid, dilated, HCM
14:10-14:25		Multimodality imaging of cardiac masses
14:25-14:40		Discussion
14:40 14:45	<b>HYDRATION BREAK</b>	
14:45-15:45	<b>CSE Game Show</b>	
15:45-16:00	<b>Concluding Remarks</b>
