## **Job description**

Job description

### **Who we are:**

Since 1981 Medi-Share has been working with medical facilities across Ontario offering a variety of advanced cardiac diagnostic solutions. Over the years Medi-Share's proven track record for providing professional, reliable diagnostic cardiology services has enabled us to develop strong partnerships with hospitals, medical centres and physicians. Our network of cardiologists and internal medicine specialists give patients rapid access to cardiovascular testing and results.

Medi-Share is dedicated to improving the cardiovascular health of patients in our communities by taking advantage of technologies, increasing access, and reducing wait times to those technologies.

Quality cardiac testing is what we do.

Our facility is fully accredited with CorHealth.

### **What we are looking for:**

Medi-Share Inc is seeking a permanent full-time Registered Adult Cardiac Sonographer to work in the beautiful town of Stratford. This candidate will work within our Stratford Hospital location. We are hiring one full-time Cardiac Sonographer, and one part-time casual Cardiac Sonographer.

### **Duties and Responsibilities:**

- Able to work independently, and collaborate with interprofessional teams
- Produce high quality cardiac diagnostic medical images. These images must meet or exceed the standards set out by CorHealth.
- Produce a clear preliminary report for interpreting physicians while meeting or exceeding the standards set out by CorHealth.
- A Sonographer who holds a strong patient focus. Verbally instructing the patient of the examination and guides the patient verbally throughout to ensure the patient is comfortable for the duration of the exam.
- Keep a clean, organized, and sanitized workstation. Including proper care of machine, probes, and maintenance logs.
- Demonstrates commitment to ongoing professional development in order to continue to provide optimal patient care

### **Qualifications:**

- Bachelor's degree, graduate of an accredited educational program in Cardiac Sonography
- Current registration with ARDMS (American Registry of Diagnostic Medical Sonographer) and/or CRCS-AE with Sonography Canada
  
- Current active member with CMRITO(College of Medical Radiation and Imaging Technologists of Ontario)
- Excellent time management, organizational and prioritization skills as relates to patient care
  
- Current CPR certification
- Demonstrated commitment to and involvement with own profession (e.g. membership with professional association, etc.) preferred
- Experience with IV insertion and contrast echo considered an asset, but willing provide education and training.
- Strong communication skills, critical thinking and interpersonal skills
- Ability to work in a hospital and clinic environment

Job Types: Full-time, Permanent

Salary: \$35.00-\$42.00 per hour

---

If you could guide me in the direction on who to speak with to post on the website that would be wonderful.

Thanks in advance.
