<b>Number of Fellowship Training Positions per Year</b>	<u>One</u>
<b>Applicant Qualifications / Prerequisites</b>	Qualified for educational or practice license in Ontario, completion of clinical Cardiology training, and interested in pursuing a clinical or academic career in Echocardiography.
<b>Program Description</b>	Sunnybrook Health Sciences Centre is offering advanced echocardiography/cardiac imaging fellowship training to qualified applicants. Sunnybrook has a busy echocardiography laboratory with 8 sonographers and performs approximately 11,000 echocardiograms, 400 TEE and 400 stress echocardiograms annually. We have active TAVI and MitraClip programs. We offer 1 and 2 year cardiac imaging fellowships. The 1 year fellowship is expected to result in Level 3 certification in Echocardiography with the potential for some exposure to cardiac MRI and CT. The 2 year fellowship offers the opportunity for additional experience in cardiac MRI, CT, and clinical research.
